#### Past History of Illness with Treatment

- History of tonsillitis.
- History of taking allopathic treatment for tonsillitis

#### Family History

- Nothing Particular

#### Patient as a Person (Personal History)

##### General Appearance

- |                |   |        |
|----------------|---|--------|
| a) Built       | - | Normal |
| b) Posture     | - | Normal |
| c) Gait        | - | Normal |
| d) Speech      | - | Normal |
| e) Dress Sense | - | Good   |
| f) Height      | - | 5'2"   |
| g) Weight      | - | 55 kg. |

##### Diet

- |             |   |             |
|-------------|---|-------------|
| a) Appetite | - | Normal      |
| b) Thirst   | - | Thirst less |
| c) Desires  | - | Lemons      |
| d) Aversion | - | NP          |

##### Discharges

- |                        |   |     |
|------------------------|---|-----|
| a) Stool               | - | NAD |
| b) Urine               | - | NAD |
| c) Perspiration        | - | NAD |
| d) Abnormal Discharges | - | NAD |

**Thermal** - Chilly

**Habits & Interests** - None

**Addiction** - None

**Sleep** - Sleepy but can't sleep

#### Mental Generals

- She becomes abusive during anger.
- She feels difficult in concentration while study.
- Anger at trifles.
- Anger-violent.
- Patient weeps with anger.

#### Gynaecological/Obstetrical History

Menses : LMP- 01.02.13

- Time - Too early
- Character of blood - Bright red with dark clots
- Character of pain - Sudden comes and goes

#### Physical Examination:

- |                  |   |                 |
|------------------|---|-----------------|
| • Pulse          | - | 72/min          |
| • Blood Pressure | - | 110/80 mm of hg |
| • Anemia         | - | Absent          |
| • Eyes           | - | Normal          |
| • Tongue         | - | Pink            |

#### Systemic Examination:

- |                     |   |                             |
|---------------------|---|-----------------------------|
| • GIT               | - | NAD                         |
| • URINARY           | - | NAD                         |
| • Throat-Inspection | - | Throat red, tonsil swollen. |
| • CNS               | - | NAD                         |
| • CVS               | - | NAD                         |
| • Respiratory       | - | NAD                         |

**Investigation** - No Investigation.

#### Provisional Diagnosis & D/D:

Spasmodic Dysmenorrhoea,  
Congestive Dysmenorrhoea,  
Ovarian cyst.

#### Final Diagnosis -

Spasmodic Dysmenorrhoea

## Repertorial Analysis

### A) Repertorial Totality with Evaluation Of Symptoms

S. No.	Symptoms	Analysis
1.	Patient cheerful	MG
2.	Patient abusive	MG
3.	Anger alternate with weeping	MG
4.	Violent anger	MG
5.	Unable to conc. While study	MG
6.	Aversion to answering	MG
7.	Burning on face	PP
8.	Pimples on forehead	PP
9.	Inflammation of throat	PP
10.	Menses painful	PP
11.	Pain suddenly comes & goes	PP

### B. Analysis With Comments

Out of Twelve highest ruling medicines. Belladonna is covering all the symptoms including thermal also. So Belladonna becomes the ultimate choice.

**Final Prescription** – Belladonna 1M

**First Prescription** - Belladonna 1M

**Dose** Single

**Mode of administration** - Oral

**Date** - 07.02.2013

### General Management

Advice to take medicine regularly. Take hot fomentations.

bharti final: NKS  
This analysis contains 427 remedies and 16 symptoms.  
Intensity is considered
